NOTE: This matrix is a summary only. For complete regulations see appropriate sections of The Zoning Ordinance and General Plan.

VILLAGE REGULATIONS

[illegible]

(Added by Ord. No. 10162 (N.S.) adopted 8-3-11)
(Amended by Ord. No. 10217 (N.S.) adopted 7-25-12)

2060 CONSISTENT USE REGULATION.

A consistent Use Regulation as indicated by the symbol (●) is a Use Regulation which is consistent with the indicated Land Use Designation to which it is applied unless precluded by the General Plan, Community Plan or Specific Plan with consideration given to terrain, access, hazards, community character, lot configuration, lot size, drainage, adjacent land use, traffic congestion, noise, air pollution, other factors affecting health, safety or welfare or any other relevant issue.

(Added by Ord. No. 10217 (N.S.) adopted 7-25-12)

2070 SPECIAL CIRCUMSTANCES.

A Use Regulation as indicated by the symbol (o) is a Use Regulation which may be applied in special circumstances with a corresponding Land Use Designation and shall meet one of the following:

- a. The existing Use Regulation was in effect prior to the adoption of the current Land Use Designation; or
- b. The property or area meets the findings in Section 2072 below.

(Added by Ord. No. 10217 (N.S.) adopted 7-25-12)

2072 SPECIAL CIRCUMSTANCES REGULATIONS.

The following findings shall be met in order to find that a Use Regulation is consistent under Special Circumstances with the compatibility matrix, Section 2050:

- a. The Use Regulation is consistent with the applicable community plan.
- b. The Use Regulation is consistent with, or applied under special circumstances in, the majority of Land Use Designations that border the subject parcel(s).
- c. The Use Regulation is compatible with the surrounding land uses, with consideration given to:
 - 1. Density or intensity of potential uses;
 - 2. Availability of public facilities, services and utilities;
 - 3. Harmony with the neighborhood character;
 - 4. Capacity and character of surrounding streets; and
 - 5. Any other relevant impact of the potential use.

- d. A General Plan Amendment to an appropriate Land Use Designation that would allow for the Use Regulation to be consistent and therefore not a special circumstance, is infeasible as determined by the Director after consideration of the General Plan and applicable Community Plan.
- e. Additionally, a study shall be submitted by the applicant that the proposed Use Regulation meets at least one of the following:
 - 1. There is a demonstrated need for the potential uses of the proposed Use Regulation and there is insufficient land suitably zoned in the Community Planning Area to meet the demonstrated need. Additionally, the application of the proposed Use Regulation would not result in a scarcity of the existing Use Regulation within the community planning area or;
 - 2. The site characteristics make it physically impossible to implement uses allowed with the existing Use Regulation. Such constraints may include, but are not limited to lot configuration, lot size, topography, drainage, adjacent land use, access, traffic congestion, noise, air pollution or other factors affecting health, safety or welfare.

The study submitted subject to e.1 or e.2 shall be reviewed by the Director and included as part of the rezone findings for consideration.
